

# POWER-WIZ ELECTRO LTD

---

## OCCUPATIONAL SAFETY AND HEALTH POLICY

### General Statement

Power-Wiz Electro Limited is committed to ensuring provision of a safe, healthy and environmentally friendly workplace for staff and other stakeholders.

### The Management is Committed:

- Ensure compliance with all the relevant legislations and statutory requirements.
- Ensure compliance with other requirements to which the organization subscribes that relate to its OHS hazards.
- Setting and reviewing OHS objectives.
- Offer information, instructions and training necessary to enable safe performance of work activities to all employees.
- Consult with external experts and other interested parties on OHS issues.
- Ensure that the design of all processes and systems of work take full account of health and safety.
- Ensure the provision and maintenance of adequate resources to take care of safety issues.
- Ensure that persons in workplace take responsibility for aspects of OHS over which they have control and provide a forum for continuous identification of workplace hazards.
- Ensure commitment to continual improvement.

### Implementation

This will be done through total commitment and participation from all levels of employees. The effectiveness of the OHS management system shall be regularly reviewed in light of legislative and organizational changes as well as results of risk assessments and at management review meetings.
